Pawsgiving Food Drive

This November, we're celebrating the season of giving with our Pawsgiving Food Drive to support The Scratching Post Cat Shelter!

You can help make a difference by donating canned cat food throughout the month of November! Every can helps fill a hungry belly and gives a shelter cat something to be thankful for this Thanksgiving.

Did you know? The Scratching Post cares for around 200 cats and goes through nearly 150 cans of food every day! We proudly support The Scratching Post year-round by selling \$2 catnip bags at our front desk—every purchase goes directly to help the cats in their care.

Drop off donations at Erlanger Veterinary Hospital during business hours, let's show our community what kindness looks like, one can (and one catnip bag!) at a time.

CHECK OUT OUR FACEBOOK EVENT FOR MORE DETAILS!!

November is Senior Pet Health Month

Our pets may grow older, but they never stop being beloved members of the family.

As they enter their senior years, their healthcare needs change and regular wellness exams become more important than ever. These visits allow us to detect potential issues early, often before symptoms become noticeable, helping your pet maintain a happy and comfortable life.

Common health concerns in senior pets include kidney disease, thyroid disease, arthritis, and dental disease. With early detection and proper management, many of these conditions can be treated or controlled, greatly improving your pet's quality of life. During your pet's senior exam, our team will take the time to assess their overall health, discuss any changes you've noticed at home, and create a personalized care plan to keep them thriving through their golden years.

Pet of the Month

Belle

Belle, whose name means "beautiful" in French, is a 5-month-old Blue Point Himalayan with a big personality packed into a tiny, fluffy package! Known affectionately as a "sweet little tornado," Belle zooms around the house with her 4-year-old companion, Rosie, a Tortie Point Himalayan.

When she's not busy playing chase or proudly carrying her toy mouse from room to room, Belle loves hitching a ride on her owner's walker—her favorite spot to observe the world. She brings endless joy and laughter to her home with her playful spirit and loving nature!

November 1st

Cook for Your Pet Day

It's the perfect time to whip up something special for your furry friend. We're sharing an easy, low-fat, high-protein treat recipe to try at home—but remember, treats should make up no more than 10% of your pet's daily diet.

Clean Chicken and Pumpkin Protein Treats (No Grain, No GMO)

Ingredients

- 1 lb extra-lean ground chicken or turkey breast (organic if possible)
- 1 egg white (binder + extra protein)
- ½ cup pure pumpkin puree (no additives, just pumpkin)
- 2 Tbsp coconut flour (adds structure; low-fat and grain free)

Instructions

1. Preheat oven to 350 F and line a baking sheet with parchment paper
2. In a bowl, mix all ingredients until it forms a firm dough
 - If its too wet, sprinkle in a little more coconut flour
3. Shape into small balls or flatten into ¼ inch patties.
4. Bake 25-30 minutes, flipping halfway, until firm and lightly browned.
5. Cool completely before giving.

Storage :

- Refrigerate: up to 5 days
- Freeze: up to 3 months

Thankful Tails from the EVH Team

As we move into the season of gratitude, we wanted to take a moment to reflect on all the things that make our days a little brighter. From the wagging tails and happy purrs we're greeted with each morning, to the amazing clients who trust us to care for their beloved pets-there's so much to be thankful for. Our team has shared a few of the things they're most grateful for this year, both inside and outside the hospital.

Denise - Thankful I get to do a job that is my passion. I love helping my patients but also love educating and making a difference in our clients lives.

Kaitlyn - I'm grateful for the privilege of caring for pets through every stage of life-from first visits and client education to celebrating recovery and saying goodbye. Being part of these meaningful moments with our patients and their families is an incredible honor. Even on the hardest days, the love in this field reminds me why I wouldn't choose any other career.

Dr. Marisa Clark - I'm so thankful to work with such a supportive team that feels like family. I love helping pets and being part of the special bond they share with their people.

Rachael - This year, I'm thankful for the veterinary community. This is not an industry one enters looking to make money, but a difference for the animals that do not have a voice. I'm thankful for the pet families that trust in us to care for their pets with the compassion that we all carry in our hearts every day.
